

**Quarterly Report
March 31, 2019**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the consolidated financial condition and consolidated results of operations of FCS Financial, ACA and its subsidiaries FCS Financial, FLCA and FCS Financial, PCA. This discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Quarterly Report as well as Management's Discussion and Analysis included in our Annual Report for the year ended December 31, 2018.

Due to the nature of our financial relationship with AgriBank, FCB (AgriBank), the financial condition and results of operations of AgriBank materially impact our members' investment. To request free copies of AgriBank financial reports or additional copies of our report, contact us at:

FORWARD-LOOKING INFORMATION

Any forward-looking statements in this Quarterly Report are based on current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from expectations due to a number of risks and uncertainties. More information about these risks and uncertainties is contained in our 2018 Annual Report. We undertake no duty to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

AGRICULTURAL AND ECONOMIC CONDITIONS

Missouri producers entered 2019 following a 2018 crop production cycle that was generally below average for many crop producers across the state, compounded by a continued low commodity price environment during the first quarter of 2019. Wet conditions that started during the fall harvest continued through the first quarter including the governor declaring a state of emergency for two of our far northwest counties. Other areas along the Missouri and Mississippi River basins are at risk of flooding as the first quarter drew to a close, posing concerns for the 2019 planting season in those areas.

The United States Department of Agriculture Economic Research Service preliminary Net Farm Income forecast for 2019 reflects modestly improved profit levels for farmers in 2019 as compared to 2018, although at levels still well below the period of record profits achieved by farmers in the early years of the current decade. The lower levels of farmer profitability in recent years continue to challenge the working capital and repayment capacity levels of agriculture producers. Input costs have come down some, but not at the same rate as revenues.

Leading concerns for much of agriculture are political in nature and relate to key partner trade and tariff negotiations, and global demand for U.S. agriculture products. These concerns have heightened over the past year and continue to be at elevated levels as we look ahead to the balance of 2019. Livestock producers especially are dependent on meat exports to maintain profitable price levels.

The sale of Missouri cropland has slowed relative to sales activity of prior years' although values remain relatively stable. This is especially true of crop land with higher quality soil types. There have been examples of below average quality crop land experiencing reduced market demand and lower values. Rental rates for crop land are mixed based upon local market situations, but generally have remained stable to nominally lower. Land that is predominately other than crop tracts (pasture, wood land, and recreational tracts) continue to sell at stable or even modestly increased values. Overall, valuations for real estate, which is the primary collateral asset class for FCS Financial loans, are stable.

LOAN PORTFOLIO

Loan Portfolio

Total loans were \$4.1 billion at March 31, 2019, an increase of \$15.3 million from December 31, 2018. The increase was primarily due to continued demand for mortgage loans across most segments of the portfolio partially offset by the seasonal decline in our production loan portfolio.

Portfolio Credit Quality

The credit quality of our portfolio declined from December 31, 2018. Adversely classified loans increased to 2.9% of the portfolio at March 31, 2019, from 2.1% of the portfolio at December 31, 2018. Adversely classified loans are loans we have identified as showing some credit weakness outside our credit standards. We have considered portfolio credit quality in assessing the reasonableness of our allowance for loan losses.

In certain circumstances, government agency guarantee programs are used to reduce the risk of loss. At March 31, 2019, \$239.8 million of our loans were, to some level, guaranteed under these government programs.

Risk Assets

Components of Risk Assets

(dollars in thousands)	March 31	December 31
As of:	2019	2018
Loans:		
Nonaccrual	\$9,033	\$7,850
Accruing restructured	1,096	1,151
Accruing loans 90 days or more past due	--	--
Total risk loans	10,129	9,001
Other property owned	--	258
Total risk assets	\$10,129	\$9,259
Total risk loans as a percentage of total loans	0.2%	0.2%
Nonaccrual loans as a percentage of total loans	0.2%	0.2%
Current nonaccrual loans as a percentage of total nonaccrual loans	85.0%	91.8%
Total delinquencies as a percentage of total loans	0.1%	0.1%

Note: Accruing loans include accrued interest receivable.

Our risk assets have not changed significantly from December 31, 2018, and have remained at acceptable levels. Total risk loans as a percentage of total loans were well within our established risk management guidelines.

The increase in nonaccrual loans was primarily due to the net effect of several smaller loans that transferred to nonaccrual, offset by paydowns and payoffs. Nonaccrual loans remained at an acceptable level at March 31, 2019, and December 31, 2018.

Allowance for Loan Losses

The allowance for loan losses is an estimate of inherent losses on loans in our portfolio as of the financial statement date. We determine the appropriate level of allowance for loan losses based on periodic evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions.

Allowance Coverage Ratios

As of:	March 31	December 31
	2019	2018
Allowance as a percentage of:		
Loans	0.4%	0.4%
Nonaccrual loans	177.1%	203.4%
Total risk loans	157.9%	177.4%

In our opinion, the allowance for loan losses was reasonable in relation to the risk in our loan portfolio at March 31, 2019.

RESULTS OF OPERATIONS

Profitability Information

(dollars in thousands)	2019	2018
For the three months ended March 31		
Net income	\$18,612	\$19,804
Return on average assets	1.8%	2.0%
Return on average members' equity	8.6%	9.8%

Changes in the chart above relate directly to:

- Changes in income discussed below
- Changes in assets discussed in the Loan Portfolio section

- Changes in capital discussed in the Funding, Liquidity, and Capital section

Changes in Significant Components of Net Income

(in thousands)			Increase
For the three months ended March 31	2019	2018	(decrease) in net income
Net interest income	\$25,969	\$24,247	\$1,722
Patronage income	3,598	3,489	109
Other income, net	1,972	3,308	(1,336)
Operating expenses	12,805	11,314	(1,491)
Provision for (benefit from) income taxes	122	(74)	(196)
Net income	<u>\$18,612</u>	<u>\$19,804</u>	<u>(\$1,192)</u>

Changes in Net Interest Income

(in thousands)	
For the three months ended March 31	2019 vs 2018
Changes in volume	\$1,726
Changes in interest rates	224
Changes in nonaccrual income and other	<u>(228)</u>
Net change	<u>\$1,722</u>

The change in other income, net was primarily due to our share of the Allocated Insurance Reserve Accounts (AIRA) distribution received from the Farm Credit System Insurance Corporation (FCSIC) of \$879 thousand in 2019, compared to \$2.1 million in 2018. The AIRA was established by FCSIC when premiums collected increased the level of the Insurance Fund beyond the required 2% of insured debt. Refer to the 2018 Annual Report for additional information about the FCSIC.

The change in operating expenses was primarily related to an increase in salaries and benefits expense.

FUNDING, LIQUIDITY, AND CAPITAL

We borrow from AgriBank, under a note payable, in the form of a line of credit. Our note payable matures on December 31, 2021, at which time the note will be renegotiated. The repricing attributes of our line of credit generally correspond to the repricing attributes of our loan portfolio, which significantly reduces our market interest rate risk. Due to the cooperative structure of the Farm Credit System and as we are a stockholder of AgriBank, we expect this borrowing relationship to continue into the foreseeable future. Our other source of lendable funds is from unallocated surplus.

The components of cost of funds associated with our note payable include:

- A marginal cost of debt component
- A spread component, which includes cost of servicing, cost of liquidity, and bank profit
- A risk premium component, if applicable

We were not subject to a risk premium at March 31, 2019, or December 31, 2018.

Total members' equity increased \$12.2 million from December 31, 2018, primarily due to net income for the period partially offset by patronage distribution accruals.

The Farm Credit Administration (FCA) Regulations require us to maintain minimums for our common equity tier 1, tier 1 capital, total capital, and permanent capital risk-based capital ratios. In addition, the FCA requires us to maintain minimums for our non-risk-adjusted ratios of tier 1 leverage and unallocated retained earnings and equivalent leverage. Refer to Note 7 in our 2018 Annual Report for a more complete description of these ratios.

Regulatory Capital Requirements and Ratios

As of:	March 31 2019	December 31 2018	Regulatory Minimums	Capital Conservation Buffer	Total
Risk-adjusted:					
Common equity tier 1 ratio	18.0%	18.4%	4.5%	2.5%*	7.0%
Tier 1 capital ratio	18.0%	18.4%	6.0%	2.5%*	8.5%
Total capital ratio	18.4%	18.8%	8.0%	2.5%*	10.5%
Permanent capital ratio	18.1%	18.5%	7.0%	N/A	7.0%
Non-risk-adjusted:					
Tier 1 leverage ratio	18.9%	19.3%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	19.5%	19.9%	1.5%	N/A	1.5%

*The 2.5% capital conservation buffer over risk-adjusted ratio minimums is being phased in over three years under the FCA capital requirements. The phase in period ends on December 31, 2019.

The capital adequacy ratios are directly impacted by the changes in capital as more fully explained in this section and the changes in assets as discussed in the Loan Portfolio section.

CERTIFICATION

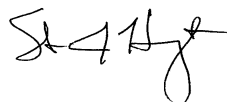

The undersigned have reviewed the March 31, 2019, Quarterly Report of FCS Financial, ACA, which has been prepared under the oversight of the Audit Committee and in accordance with all applicable statutory or regulatory requirements. The information contained herein is true, accurate, and complete to the best of our knowledge and belief.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Consolidated Financial Statements contain all adjustments necessary for a fair presentation of the interim Consolidated Statements of Condition and Consolidated Statements of Income. Our accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) and the prevailing practices within the financial services industry. This interim Quarterly Report is prepared based upon statutory and regulatory requirements and in accordance with GAAP. However, certain disclosures required by GAAP are omitted. The results of the three months ended March 31, 2019, are not necessarily indicative of the results to be expected for the year ending December 31, 2019. The interim financial statements and the related notes in this Quarterly Report should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report for the year ended December 31, 2018.

The Consolidated Financial Statements present the consolidated financial results of FCS Financial, ACA (the Association) and its subsidiaries FCS Financial, FLCA and FCS Financial, PCA (the subsidiaries). All material intercompany transactions and balances have been eliminated in consolidation.

Significant Accounting Policies

Leases: We are the lessee in finance and operating leases. We evaluate arrangements at inception to determine if it is a lease. Leases with an initial term of 12 months or less are not recorded on the balance sheet with lease expense recognized on a straight-line basis over the lease term. For finance and operating leases with terms greater than 12 months the right-of-use (ROU) assets are included in "Other assets" in the Consolidated Statements of Condition and the lease liabilities are included in "Other liabilities" in the Consolidated Statements of Condition.

The ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Finance and operating lease ROU assets and liabilities are recognized based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. We use the implicit rate when readily determinable. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Operating lease expense for lease payments is recognized on a straight-line basis over the lease term. Finance lease expense is recorded on the Statement of Income and is allocated between interest expense and amortization expense. The portion allocated to interest expense is calculated using the effective interest method.

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board (FASB) and have determined the following standards to be applicable to our business. While we are a nonpublic entity, our financial results are closely related to the performance of the combined Farm Credit System. Therefore, we typically adopt accounting pronouncements on the public business entities effective date or aligned with other System institutions, whichever is earlier.

Standard and effective date	Description	Adoption status and financial statement impact
In February 2016, the FASB issued Accounting Standards Update (ASU) 2016-02 "Leases." In July 2018, the FASB issued ASU 2018-11 "Leases (Topic 842): Targeted Improvements." The guidance is effective for public business entities in its first quarter of 2019 and early adoption is permitted.	The guidance modifies the recognition and accounting for lessees and lessors and requires expanded disclosures regarding assumptions used to recognize revenue and expenses related to leases. When this guidance is adopted, a liability for lease obligations and a corresponding right-of-use asset will be recognized on the Consolidated Statements of Condition for all lease arrangements spanning more than 12 months. The guidance includes an optional transition method where an entity is permitted to apply the guidance as of the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings.	We adopted this guidance on January 1, 2019. The adoption of this guidance did not have a material impact on our financial condition, results of operations, and financial statement disclosures, and had no impact on cash flows.
In August 2018, the FASB issued ASU 2018-15 "Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract." The guidance is effective for our first quarter of 2020 and early adoption is permitted.	The guidance clarifies that implementation costs incurred in a hosting arrangement that is a service contract should be accounted for in the same manner as implementation costs incurred to develop or obtain internal-use software.	We are in the process of reviewing the accounting standard. Based on our preliminary review and analysis, this new guidance is not expected to have a material impact on our financial condition, results of operations, cash flows, and financial statement disclosures.

Standard and effective date	Description	Adoption status and financial statement impact
In June 2016, the FASB issued ASU 2016-13 "Financial Instruments – Credit Losses." This guidance is effective for public business entities for non-U.S. Securities Exchange Commission filers for the first quarter of 2021 and early adoption is permitted.	The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses.	We have no plans to early adopt this guidance. We have reviewed the accounting standard, selected our system, and are in the process of drafting disclosures. Significant implementation matters yet to be addressed include system development and testing, drafting of accounting policies, and designing processes and controls. We are currently unable to estimate the impact on the financial statements.

NOTE 2: LOANS AND ALLOWANCE FOR LOAN LOSSES

Loans by Type

(dollars in thousands)

As of:	March 31, 2019		December 31, 2018	
	Amount	%	Amount	%
Real estate mortgage	\$2,379,885	58.2%	\$2,342,822	57.5%
Production and intermediate-term	623,790	15.2%	671,044	16.5%
Agribusiness	836,918	20.5%	820,552	20.1%
Other	250,643	6.1%	241,515	5.9%
Total	\$4,091,236	100.0%	\$4,075,933	100.0%

The other category is primarily comprised of communication, energy, and other diversified industries in our capital markets portfolio.

Delinquency

Aging Analysis of Loans

(in thousands)	30-89	90 Days	Total	Not Past Due	Total
	Days	or More		or Less than 30	
As of March 31, 2019	Past Due	Past Due	Past Due	Days Past Due	
Real estate mortgage	\$1,240	\$87	\$1,327	\$2,407,052	\$2,408,379
Production and intermediate-term	2,770	833	3,603	632,743	636,346
Agribusiness	128	--	128	840,980	841,108
Other	2	107	109	251,131	251,240
Total	\$4,140	\$1,027	\$5,167	\$4,131,906	\$4,137,073

As of December 31, 2018	30-89	90 Days	Total	Not Past Due	Total
	Days	or More		or Less than 30	
	Past Due	Past Due	Past Due	Days Past Due	
Real estate mortgage	\$1,349	\$180	\$1,529	\$2,368,760	\$2,370,289
Production and intermediate-term	1,278	175	1,453	682,614	684,067
Agribusiness	252	--	252	824,431	824,683
Other	224	--	224	241,697	241,921
Total	\$3,103	\$355	\$3,458	\$4,117,502	\$4,120,960

Note: Accruing loans include accrued interest receivable.

There were no loans 90 days or more past due and still accruing interest at March 31, 2019, and December 31, 2018.

Risk Loans

Risk loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms.

Risk Loan Information		
(in thousands)	March 31	December 31
As of:	2019	2018
Volume with specific allowance	\$3,268	\$2,547
Volume without specific allowance	6,861	6,454
Total risk loans	\$10,129	\$9,001
Total specific allowance	\$892	\$874
For the three months ended March 31	2019	2018
Income on accrual risk loans	\$15	\$16
Income on nonaccrual loans	132	360
Total income on risk loans	\$147	\$376
Average risk loans	\$9,425	\$8,611

Note: Accruing loans include accrued interest receivable.

We did not have any material commitments to lend additional money to borrowers whose loans were classified as risk loans at March 31, 2019.

Troubled Debt Restructurings (TDRs)

In situations where, for economic or legal reasons related to the borrower's financial difficulties, we grant a concession for other than an insignificant period of time to the borrower that we would not otherwise consider, the related loan is classified as a troubled debt restructuring, also known as a restructured loan. A concession is generally granted in order to minimize economic loss and avoid foreclosure. Concessions vary by program and borrower and may include interest rate reductions, term extensions, payment deferrals, or an acceptance of additional collateral in lieu of payments. In limited circumstances, principal may be forgiven. Loans classified as TDRs are considered risk loans. All risk loans are analyzed within our allowance for loan losses. We record a specific allowance to reduce the carrying amount of the restructured loan to the lower of book value or net realizable value of collateral.

There were no TDRs that occurred during the three months ended March 31, 2019.

TDR Activity		
(in thousands)	2018	
Three months ended March 31	Pre-modification	Post-modification
Real estate mortgage	\$746	\$746
Agribusiness	82	82
Total	\$828	\$828

Pre-modification represents the outstanding recorded investment of the loan just prior to restructuring and post-modification represents the outstanding recorded investment of the loan immediately following the restructuring. The recorded investment in the loan is the unpaid principal amount of the receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, and acquisition costs and may also reflect a previous direct charge-off.

The primary type of modification included deferral of principal.

We had TDRs in the Production and Intermediate-term loan category of \$21 thousand that defaulted during the three months ended March 31, 2019 in which the modifications were within twelve months of the respective reporting period.

TDRs Outstanding		
(in thousands)	March 31	December 31
As of:	2019	2018
Accrual status:		
Real estate mortgage	\$485	\$527
Production and intermediate-term	611	624
Agribusiness	--	--
Total TDRs in accrual status	\$1,096	\$1,151
Nonaccrual status:		
Real estate mortgage	\$1,709	\$1,725
Production and intermediate-term	485	503
Agribusiness	86	116
Total TDRs in nonaccrual status	\$2,280	\$2,344
Total TDRs:		
Real estate mortgage	\$2,194	\$2,252
Production and intermediate-term	1,096	1,127
Agribusiness	86	116
Total TDRs	\$3,376	\$3,495

There were no commitments to lend to borrowers whose loans have been modified in a TDR at March 31, 2019.

Allowance for Loan Losses

Changes in Allowance for Loan Losses

(in thousands)	2019	2018
Three months ended March 31		
Balance at beginning of period	\$15,966	\$15,915
Loan recoveries	96	113
Loan charge-offs	(69)	(59)
Balance at end of period	\$15,993	\$15,969

NOTE 3: OTHER INVESTMENTS

We and other Farm Credit Institutions are among the limited partners for Rural Business Investment Companies (RBICs). Our total commitment is \$8.0 million with varying commitment end dates through November 2023. Certain commitments may have an option to extend under certain circumstances. Our investment in the RBICs are recorded in "Other assets" in the Consolidated Statements of Condition, and totaled \$1.1 million at March 31, 2019, and \$555 thousand at December 31, 2018.

The investments were evaluated for impairment. No investments were impaired as of March 31, 2019, and December 31, 2018.

NOTE 4: CONTINGENCIES AND COMMITMENTS

In the normal course of business, we have various contingent liabilities and commitments outstanding, primarily commitments to extend credit, which may not be reflected in the Consolidated Financial Statements. We do not anticipate any material losses because of these contingencies or commitments.

We may be named as a defendant in certain lawsuits or legal actions in the normal course of business. At the date of these Consolidated Financial Statements, our management team was not aware of any material actions. However, management cannot ensure that such actions or other contingencies will not arise in the future.

NOTE 5: FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Accounting guidance also establishes a fair value hierarchy, with three input levels that may be used to measure fair value. Refer to Note 2 in our 2018 Annual Report for a more complete description of the three input levels.

We did not have any assets or liabilities measured at fair value on a recurring basis at March 31, 2019, or December 31, 2018.

Non-Recurring

We may be required, from time to time, to measure certain assets at fair value on a non-recurring basis.

Assets Measured at Fair Value on a Non-recurring Basis

(in thousands)

Valuation Techniques

Impaired loans: Represents the carrying amount and related write-downs of loans which were evaluated for individual impairment based on the appraised value of the underlying collateral. When the value of the collateral, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. If the process uses observable market-based information, they are classified as Level 2. If the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters, they are classified as Level 3.

Other property owned: Represents the fair value and related losses of foreclosed assets that were measured at fair value based on the collateral value, which is generally determined using appraisals, or other indications based on sales of similar properties. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. If the process uses observable market-based information, they are classified as Level 2. If the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the property and other matters, they are classified as Level 3.

NOTE 6: SUBSEQUENT EVENTS

We have evaluated subsequent events through May 9, 2019, which is the date the Consolidated Financial Statements were available to be issued. There have been no material subsequent events that would require recognition in our Quarterly Report or disclosure in the Notes to Consolidated Financial Statements.
